Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

Please stop the government intrusion.

Californians already rank dead last among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American, and less than consumers in Luxembourg, Guam, the Cayman Islands and Aruba.

I suggest that the 5 energy commissioners install these devices in their homes for a 5 year test market. At the conclusion of the test, allow us to vote as to whether we would like them installed in our homes. I think some of you guys need real jobs.

Sincerely,

William Davis
