Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

It is hard to believe that the government is proposing to put thermostats in private homes and control them from Sacramento. Have you read BRAVE NEW WORLD? What's next? A device on our refrigerators to make sure we're eating as bureaucrats think we should?

This proposal is an outrage to the rights of private citizens. What's worst, such draconian methods are not needed. Californians already rank dead last among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American, and less than consumers in Luxembourg, Guam, the Cayman Islands and Aruba.

Stop the expansion of the government nanny state. Oppose the government controlled thermostats in our own homes.

Sincerely,

Robert K. Wilcox
