Docket 05-DATA-1

Order No.08-0102-9

**ORDER ADOPTING HISTORICAL
ELECTRICITY AND NATURAL GAS DATA COLLECTION
FORMS AND INSTRUCTIONS, JANUARY 2008**

By this Order, the California Energy Commission adopts the attached *Historical Electricity and Natural Gas Data Collection* Forms and Instructions and accompanying errata. These Forms and Instructions are based on the amendments to Article 1 of Chapter 3 of Division 2 of Title 20 of the California Code of Regulations, hereinafter referred to as Article 1. Amendments to the regulations contained in Article 1 were adopted by the Energy Commission on April 25, 2007, and approved by the California Office of Administrative Law on July 6, 2007.

Section 1303 of Title 20 states that data and reports required by Article 1 are to be submitted on forms, and in accordance with instructions for the forms, specified by the Energy Commission's executive director. The executive director must consult with interested companies before specifying forms and instructions adopted by the Energy Commission.

On December 6, 2007, the executive director made draft Forms and Instructions available to all interested entities for review and comment. Approximately nineteen companies provided comments. The executive director considered all comments when finalizing the Forms and Instructions for possible adoption at the Energy Commission's January 2, 2008 business meeting. The Energy Commission finds that the attached Forms and Instructions and accompanying errata appropriately reflect the changes to the regulations contained in Article 1 and reasonably respond to the comments received regarding the draft Forms and Instructions distributed by the executive director. Therefore, the Energy Commission hereby adopts the attached Forms and Instructions and accompanying errata for the purpose of complying with the reporting requirements contained in Article 1.
