Subject: Docket No. 07-BTSD-1

While I consider myself quite Green in my lifestyle for the last 30 years, I would not tolerate being subjected to control of energy use. Right now someone is very ill in my home and we have to keep her very warm. If I weren't allowed to do this, I would be enraged beyond rationality.

Please don't take away any more freedoms in this country. We have to live with our consequences of use and misuse of energy, but to be controlled in this or any other way, would be imprisonment and inhuman punishment. It would also be unconstitutional.
