Subject Ivanpah Solar Energy Project

All possible public land should remain wildlife habitat, NOT be destroyed as habitat by being used for generating solar energy. Wildlife, including the desert tortoise, have already lost far too much habitat. Far more energy can be "created" through energy conservation, including reducing the use of motor vehicles.

Sincerely yours,

Mike Vandeman, Ph.D.

--

I am working on creating wildlife habitat that is off-limits to humans ("pure habitat"). Want to help? (I spent the previous 8 years fighting auto dependence and road construction.)

Please don't put a cell phone next to any part of your body that you are fond of!
