Subject: Re: Eastshore Distances Calculation

Dear Ms. Geffer:

Today I received the below communication from you directed solely to me. Whether the other parties of record have received this is unknown. In this regard, this is to request that all parties be included on all communications from your office.

Without addressing the final Exhibit List attached to your email, this is to also request clarification on the amount of time which the other parties have to review and agree with the distance calculations. Based on Ms. Graves email included below, she states that we would be provided that information yesterday. To date we have received nothing, although we have no objection to all parties receiving additional time to attempt to come to an agreement and appreciate the efforts of the City, CEC staff and applicant to take the lead on this issue.

In this regard, this is to request that all parties have at least three business days from the date of service of the proposed stipulation to have an adequate opportunity to examine the determinations arrived at by the applicant, City and CEC staff and to provide any input on any measurements on which these three may not be able to reach agreement.

Thank you for your attention in this matter.

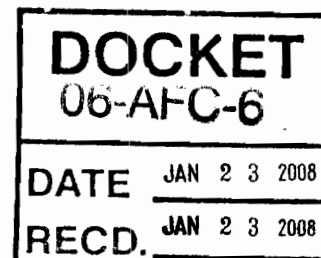

Jewell J. Hargleroad

IMPORTANT/CONFIDENTIAL: This message is intended only for the individual or entity to which it is addressed. It contains information which may be privileged, confidential and exempt from disclosure under law. If the reader of this message is not the intended recipient, or the employee or agent responsible for delivering the message to the intended recipient, please be aware that any dissemination, distribution, or copying of this communication is strictly prohibited. If you have received this communication in error, please notify me immediately.

Counsel:

Attached is the final Exhibit List. Please refer to the Exhibits and the Reporter's Transcript, including specific page and line numbers, in your briefs.

The Applicant, City of Hayward, and Energy Commission staff will circulate a joint list of their proposed project "distances" as

requested by the Committee. The other parties will then have the opportunity to propose their "distance" calculations if different from those included in the joint list. The January 22 deadline for the stipulated distances has been continued till January 25 to allow the parties to compile accurate information.

Thank you.

Susan Gefter
Hearing Officer
Eastshore AFC Committee
California Energy Commission
