Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

Please do not allow more government intrusion into our own homes by requiring homeowners to install a thermostat that can be adjusted by government bureaucrats.

I think the better way to achieve more conservation is to encourage incentives to homeowners who choose to have outside regulated thermostats in their homes.

Stop the expansion of the government nanny state. Oppose the government controlled thermostats in our own homes.

Sincerely,

Darla Bland
