Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

Stop the government intrusion into our own homes by requiring homeowners to install a thermostat that can be adjusted by government bureaucrats. What are you all thinking about!? This is America, not the Soviet Union/Russia. We Americans do not need the government telling us what to do and how to make a decision to adjust our thermostats.

Californians already rank dead last among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American, and less than consumers in Luxembourg, Guam, the Cayman Islands and Aruba.

Stop the expansion of the government nanny state. Oppose the government controlled thermostats in our own homes.

My home is MY HOME. No one is coming into it to do anything!!! You all need to be working on the real problems in this state and stay out of our personal lives.

Respectfully,

Ruby Caldwell
