Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

I strongly oppose, & also request as a public servant, that you stop the government intrusion into our own homes by requiring homeowners to install a thermostat that can be adjusted by government bureaucrats (or any form of government). This measure is misguided & unnecessary IN ANY FORM. It will result in more enforcement problems than effectiveness.

Stop this foolhardy expansion of the government & let's all work toward meaningful energy conservation through well thought out measures & joint efforts. I expect a responsible & well balanced approach from my elected or appointed public officials. I request you oppose the government controlled thermostats in our own homes.

Sincerely,

Kevin Troutman
