Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

As a person who suffers from asthma, I find very frightening the prospect that the thermostat will stop my A/C and I will DIE!!!! Every asthmatic, COPD, cystic fibrosis, and lung disease person will also DIE!!! This is outrageous stupidity!!!! Its a thoughtless and DANGEROUS attempt to control our use of energy.

Please stop the government intrusion into our own homes by requiring homeowners to install a thermostat that can be adjusted by government bureaucrats.

Californians already rank dead last among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American, and less than consumers in Luxembourg, Guam, the Cayman Islands and Aruba.

Stop the expansion of the government nanny state. Oppose the government controlled thermostats in our own homes.

Sincerely,

Marilyn Volpert
