Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

Please stop the government intrusion into our own homes by requiring homeowners to install a thermostat that can be adjusted by government bureaucrats. This is the most ludicrous thing I have heard coming out of Sacramento to-date. Energy conservation is important, but how we get there says a lot about the kind of people we are and the kind of State we live in. Awareness is the way to get people to conserve. This plan is intrusive.

Californians already rank dead last among the 50 states in our per capita consumption of electricity. The average Californian uses about half the electricity as the average American, and less than consumers in Luxembourg, Guam, the Cayman Islands and Aruba.

Stop the expansion of the government nanny state. Oppose the government controlled thermostats in our own homes.

Sincerely,

Susan Silverman
