Subject: CVEUP

Dear Christopher Meyer:

Please be aware that the Proposed Peaker Plant expansion is **not** in a good area. It is too close to schools, a library and many homes as well as non-industrial businesses. I live within the mile radius of the existing plant. There is also a cement plant already within a mile of the plant that negatively impacts homes and businesses with noise and air particulates. With this proposed expansion the added air particulates and other pollution would negatively impact our lives and the other lives of those who work and live in this community. The CEC must rule that the proposed location is not acceptable.

Thank you for your time,

Ellen Rawolle
