Notice of Staff Workshop on Assembly Bill 868 Fuel Delivery Temperature Study

The California Energy Commission (Energy Commission) staff will conduct the second of multiple public workshops to implement Assembly Bill (AB) 868 (Davis, Chapter 398, Statutes of 2007). This legislation requires the Energy Commission to prepare a cost-benefit analysis and make recommendations on the implementation of Automatic Temperature Correction devices at retail service stations so that transportation fuels can be sold at adjusted volumes based on the industry's reference temperature.

TUESDAY, MARCH 4, 2008
10 a.m.
CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
First Floor, Hearing Room A
Sacramento, California
(Wheelchair Accessible)

DOCKET	
07-HFS-1	
DATE _____	
RECD. _____	FEB 15 2008

Note: Audio from this meeting will be broadcast over the Internet.

For details, please go to:
www.energy.ca.gov/webcast

Note: To participate in the meeting using the WebEx onscreen and audio functions, please go to the following URL in your web browser on the date and time of the meeting: <https://energy.webex.com/energy/j.php?ED=99033832&UID=0>

(If the link above does not work, go to: <https://energy.webex.com/> and enter the meeting number: **924 806 867**).

When prompted, enter your information and the following meeting password:

meeting@10. Provide your phone number, when prompted, to receive a call back on your phone for the audio of the workshop. Alternatively, you can call (866) 469-3239 (toll free in the U.S. and Canada). If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

For participation in the meeting by phone only, you can call (866) 469-3239 (toll free in the U.S. and Canada). Please be aware that the workshop's WebEx audio and onscreen activity may be recorded.

Purpose

This second public workshop will be a panel discussion on topics relating to the Fuel Delivery Temperature Study designated by AB 868. The Energy Commission will request that all interested stakeholders, in addition to the panel members, share any technical information or insight relevant to the cost-benefit analysis associated with the study. The Energy Commission will consider input for finalizing the structure of their cost-benefit analysis study; as a resource for future staff work to quantify the effects of different methods of adjusting for temperature-related fuel volume changes; and in development of any potential future policy recommendations.

Background

Transportation fuels expand and contract with temperature change. Gasoline volume expands approximately 1 percent for every 15 degree increase in temperature. Energy content does not increase with this expansion; therefore, warmer fuel reduces the distance traveled by a consumer's vehicle compared to fuel purchased at the industry reference standard temperature of 60 degrees Fahrenheit.

AB 868 seeks to analyze what impact this has on consumers and other stakeholders and it requires the Energy Commission to prepare a cost-benefit analysis and to make recommendations regarding the potential implementation of Automatic Temperature Correction devices at retail service stations. This report is due to the Legislature no later than December 31, 2008.

Written Comments

Following the workshop, written comments may be submitted any time prior to 5:00 p.m. on **March 24, 2008**. Please include the docket number **07-HFS-01** and indicate **[AB 868 Fuel Delivery Temperature Study]** in the subject line or first paragraph of your comments.

The Energy Commission encourages comments by electronic mail (e-mail). Please include your name or organization in the name of the file. Those submitting comments by e-mail should provide them in either Microsoft Word format or as a Portable Document (PDF) to [\[docket@energy.state.ca.us\]](mailto:docket@energy.state.ca.us). **One paper copy** must also be sent to the Energy Commission's Docket Unit.

All written materials relating to this workshop will be filed with the Dockets Unit and become part of the public record in this proceeding.

Public Participation

The Energy Commission's Public Adviser's Office provides the public assistance in participating in Energy Commission activities. If you want information on how to participate in this forum, please contact the Public Adviser's Office at (916) 654-4489 or toll free at (800) 822-6228, by FAX at (916) 654-4493, or by e-mail at [\[pao@energy.state.ca.us\]](mailto:pao@energy.state.ca.us). If you have a disability and require assistance to participate, please contact Lou Quiroz at (916) 654-5146 at least five days in advance.

Please direct all news media inquiries to the Media and Public Communications office by phone at (916) 654-4989, or by e-mail at [\[mediaoffice@energy.state.ca.us\]](mailto:mediaoffice@energy.state.ca.us). If you have questions on the technical subject matter of this forum, please call Nick Janusch at (916) 651-0483 or by e-mail at [\[njanusch@energy.state.ca.us\]](mailto:njanusch@energy.state.ca.us) or Laura Lawson at (916) 651-1461 or by e-mail at [\[llawson@energy.state.ca.us\]](mailto:llawson@energy.state.ca.us).

Note: California Energy Commission's formal name is State Energy Resources Conservation and Development Commission.
