File No. 030137-0012

Dear Ms. Jones:

Re:

On behalf of CPV Sentinel, LLC ("CPV"), a limited liability company and the applicant for the above-referenced CPV Sentinel Energy Project, I am providing a copy of a USGS 7.5-minute quadrangle map showing the proposed recycled water pipeline, California Historic Resources Information System records search area, and the location of previous archaeological studies and previously recorded archaeological sites. This map is confidential because it includes information regarding the location of archaeological sites and studies. The confidential Cultural Records data are associated with Applicant's Response to CEC data request number 70.

CPV requests that the enclosed Cultural Records map be designated confidential pursuant to 20 Cal. Code Regs. section 2505 (regarding the designation of confidential records). CPV requests that the entirety of the enclosed Cultural Records map be kept confidential indefinitely in order to ensure protection of potentially sensitive resources. CPV requests that the Cultural Records map not be disclosed even if aggregated with other information or redacted to conceal certain information. Disclosure of any information in the enclosed Cultural Resources map may subject sensitive archaeological resources at the proposed project site to potential damage or removal by persons privy to the confidential information.

CPV has not disclosed any of the subject confidential information to anyone other than its employees, attorneys, and consultants working on the AFC for the Sentinel Energy Project. Moreover, this information has not been disclosed to persons employed by or working for CPV except on a "need-to-know" basis. CPV has marked this information "confidential" and has instituted a policy that it be segregated from other Sentinel Energy Project files.

I have been authorized to make this application and certification on behalf of CPV. With my signature to this letter, I certify under penalty of perjury that the information contained in this
