

CALIFORNIA ENERGY COMMISSION

# Building Energy Efficiency Standards

<b>DOCKET</b> 07-BSTD-1	
<b>DATE</b>	JUN 13 2007
<b>RECD.</b>	APR 29 2008

## Standards Process Summary

Gary Flamm/Mazi Shirakh  
2008 Building Energy Efficiency Standards

Buildings and Appliances Office  
California Energy Commission

June 13<sup>th</sup> & 15<sup>th</sup>, 2007 Draft Standards Workshop

## Major Collaboration

- PIER Focused Research
- PGC-funded Codes and Standards
  - CASE Initiatives by PG&E, Southern California Edison Company, and Sempra Utilities
- Public process with active stakeholder input

## Overview

- The Efficiency Committee which is responsible for the Building Standards consists of Chairman Jackalyne Pfannenstiel and Commissioner Arthur Rosenfeld
- 2008 Standards workshops got underway in October of 2005
- Staff has held public workshops in October 2005, February 2006, March 2006, May 2006, July 2006, and February 2007

## Draft Standards Workshop

- July 2006 workshop (July 12&13) are the last staff workshops and represented the last opportunity to introduce a major new topic area into the 2008 Standards
- The February and June 2007 workshops present the Draft 2008 Standards

## Standards Update

The draft Standards workshops will present changes to:

- Residential and Nonresidential ACM Manuals
- Reference Appendices, which includes the Joint, Residential, and Nonresidential Appendices
- Other Standards topic area not presented in February 2007

## Draft Standards Workshop Tasks

- Staff will post the marked up version of the 2008 Standards, ACM Manuals and the Reference Appendices. The original 2005 language appears as black text; the proposed 2008 language appears as track changes with underline in a different color.
- There will be an opportunity for a few quick clarifying question with responses from the sponsors after each topic area presentation. Substantial discussions must be deferred to a later date after the workshop.
- No new topic areas will be considered during this workshop or the rest of the 2008 Standards process.
- There will be no discussion of the background information that were presented in previous workshops in CASE Initiatives and Templates. All of this information is available online.

## Adoption

- The Commission will move to the rulemaking and adoption phases (45 Day Language) in Fall of 2007
- The Adoption date of the Standards is anticipated to be in January 2008
