DOCKET 08-AFC-4 DATE JUL 1 0 2008 RECD.JUL 1 0 2008

Subject: ORANGE GROVE PROJECT, DATA ADEQUACY RECOMMENDATION (08-AFC-4)

Executive Director

On June 19, 2008, Orange Grove Energy, L.P., a subsidiary of J Power USA Development Company Ltd. submitted an Application for Certification (AFC) for the proposed Orange Grove Project located in rural north San Diego County, approximately six miles east of the city of Fallbrook and approximately two miles west of the community of Pala on State Route 76. Orange Grove would be a peaking facility and would consist of a 96 megawatt simple-cycle electric generating power plant. Primary equipment for the generating facility would include two natural gas-fired combustion turbine generators equipped with a water injection system to the turbine in order to reduce nitrogen oxide (NOx) formation, and a selective catalytic reduction system to further control NOx emissions. Power will be transmitted to the grid at 69 kilovolts via an approximately 0.3-mile underground electric transmission line to the existing San Diego Gas and Electric (SDG&E) Pala substation located at the project site. An approximately 2.4-mile underground natural gas pipeline will be constructed to provide gas from an existing SDG&E gas line. The power plant will use approximately 21.1 acre-feet per year of tertiary treated wastewater and approximately 21.1 acre-feet per year of fresh water obtained from Fallbrook Public Utility District which will be trucked to the site.

Staff completed its data adequacy review of the AFC on July 8, 2008 and determined that it did not meet all the requirements listed in Title 20, section 1704, and Division 2, Chapter 5, Appendix B of the California Code of Regulations for the 12-month process. Subsequent to publishing our July 8, 2008 recommendation that the Commission deem the AFC data inadequate, Orange Grove Energy, L.P. provided an AFC Supplement on July 9, 2008 (one copy for docketing). Staff has reviewed the supplemental information and believes the AFC now meets data adequacy requirements. Therefore, as of July 10, 2008 staff is revising its recommendation.

Attached is a summary table and data adequacy worksheets for all technical disciplines reflecting that the supplemental information submitted by Orange Grove Energy, L.P. achieves data adequacy. At the Energy Commission's business meeting on July 16, 2008, I will recommend that the Energy Commission adopt the AFC as data adequate. If you have any questions, please contact Felicia Miller, staff's Project Manager at (916) 654-4640.

SITING REGULATIONS	INFORMATION	AFC PAGE NUMBER AND SECTION NUMBER	ADEQUATE YES OR NO	INFORMATION REQUIRED TO MAKE AFC CONFORM WITH REGULATIONS
Appendix B (g) (1)	provide a discussion of the existing site conditions, the expected direct, indirect and cumulative impacts due to the construction, operation and maintenance of the project, the measures proposed to mitigate adverse environmental impacts of the project, the effectiveness of the proposed to verify the effectiveness of the mitigation	Pages 6.4-1 through 11, section 6.4.	Yes	
Appendix B (g) (15) (A)	A map at a scale of 1:24,000 and written description of soil types and all agricultural land uses that will be affected by the proposed project. The description shall include:	Pages 6.4-1 through 6, Figure 6.4-2, section 6.4; and Appendix 6.4-A.	Yes	
Appendix B (g) (15) (A) (i)	The depth, texture, permeability, drainage, erosion hazard rating, and land capability class of the soil;	Table 6.4-1, pages 6.4-3 and 4, section 6.4.	Yes	
Appendix B (g) (15) (A) (ii)	An identification of other physical and chemical characteristics of the soil necessary to allow an evaluation of soil erodibility, permeability, revegetation potential, and cycling of pollutants in the soil-vegetation system;	Pages 6.4-1 through 5, section 6.4.	Yes	
Appendix B (g) (15) (A) (iii)	The location of any proposed fill disposal or fill procurement (borrow) sites; and	Pages 2-4 and 5 and 2-38, section 2.0; pages 6.4-8 and 9, section 6.4.	Yes	
Appendix B (g) (15) (A) (iv)	The location of any contaminated soils that could be disturbed by project construction.	Page 6.4-9, section 6.4, and Appendix 6.14-A.	Yes	
Appendix B (g) (15) (B)	An assessment of the effects of the proposed project on soil resources and agricultural land uses. This discussion shall include:	Pages 6.4-7 through 11, section 6.4.	Yes	

Adequacy Issue:	ate X Inadequate	۲	SHEET	_

AFC PAGE NUMBER AND SECTION NUMBER	PP. 6.11-1 through 32 Section 6.11	Figure 6.11-1 Pg. 2-45 Figure 2.15-1 Section 2.15 Supplemental Filing on June 30, 2008	N/A
INFORMATION	provide a discussion of the existing site conditions, the expected direct, indirect and cumulative impacts due to the construction, operation and maintenance of the project, the measures proposed to mitigate adverse environmental impacts of the project, the effectiveness of the proposed measures, and any monitoring plans proposed to verify the effectiveness of the mitigation.	A regional transportation setting, on topographic maps (scale of 1:250,000), identifying the project location and major transportation facilities. Include a reference to the transportation element of any applicable local or regional plan.	If the proposed project including any linear facility is to be located within 20,000 feet of an airport runway that is at least 3,200 feet in actual length, or 5,000 feet of a heliport (or planned or proposed airport runway under construction, that is the subject of a notice or proposal on file with the Federal Aviation Administration), discuss the project's compliance with the applicable sections of the current Federal Aviation Regulation Part 77 – Objects Affecting Navigable Airspace, specifically any potential to obstruct or impede air navigation generated by the project at operation; such as, a thermal plume, a visible water vapor plume, glare, electrical interference, or surface structure height. The discussion should include a map at a scale of 1:24,000 that displays the airport or airstrip runway configuration, the proposed power plant site and related facilities.
