

SCE PCT Development Update

- SCE issued an RFI requesting wholesale prices for PCTs on April 11, 2008
- SCE RFI Results:
 - Five manufacturers with ZigBee certified PCTs compliant with OpenHAN reference design and SCE requirements have product available for Beta testing now
 - Three manufacturers with compliant PCTs submitted information within the SmartConnect business case target wholesale range price to SCE of \$55 +/-20% for volume of 100,000 units^[1]
 - SCE expects additional opportunities to refine manufacturers' pricing within SCE's wholesale price target in subsequent RFP this year

[1] SCE's AMI business case assumes a target price of \$50 per PCT in 2006 dollars, which escalates to \$55 per PCT in 2010. SCE's contingency analysis for PCT prices assumed a contingency price range of +/-20%.
