MMC's letter is outrageous. They have no business expressing an opinion about where this meeting will be held. They are the ones attacking the well-being and reputation of our community. I have been talking to the actual people who will be affected. I live around a half mile from this proposed plant. we want these meeting in our community not at city hall. If the CEC goes to city hall it just proves that the whole public participation thing is a pretend sham!!!

The City Council has sold out the residents. We have no desire to meet in the Council Chambers for any purpose. The Otay Recreation Center is much more convenient. People without cars can walk there. It is also less intimidating. Please hold the CEC meetings at the otay Recreation Center or one of the multi-purpose rooms near by. There is one at otay Elementary and another at the Resource Center between the school and the Recreation Center.

Thank-you,
Theresa Acerro
president of Southwest Chula Vista Civic Association
