

I have read the MMC letter dated 8/4/08. I am still opposed to the expansion of the peaker plant in my neighborhood. The mitigations do nothing to protect my health or the health of my children and grandchildren. The two 70 foot towers are an insult to our neighborhood. Allowing a heavy industrial use so close to our homes is not acceptable.

After we have a full public hearing with the California Energy Commission about this plant I would like to participate in an energy efficiency program, using money, rebates, etc.

Después de que tengan una decisión por la Comisión de Energía de California acerca de esta planta, Yo querría tomar parte en un programa de la eficiencia de energía, utilizando dinero, los reembolsos, etc. proporcionado por la ciudad.

He leído la carta de MMC fechó 8/4/08. Yo todavía soy opuesto a la expansión de la planta de peaker en mi vecindario. Las mitigaciones no hacen nada proteger mi salud o la salud de mis niños y nietos. Las dos 70 torres del pie son un insulto a nuestro vecindario. Permitir un uso industrial pesado tan cerca a nuestros hogares no es aceptable.
