Re: 08-ALT-1 & AB118 Investment Plan – Vehicle Emissions Control Information

To Whom It May Concern:

We at EVTAMERICA are currently selling DOT compliant, zero emission, 100% electric scooters (motorcycles) in California and the rest of the United States. Recently we forwarded information on our electric scooters for your review and potential inclusion into the program. We have been recently granted an exemption from the U.S. E.P.A. & California Emission requirements because our electric scooters have zero emissions, pursuant to 40 CFR 86 & 13 CA ADC § 1958.

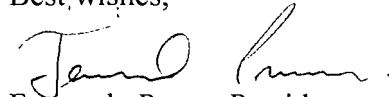

Attached to this letter, we have included the following for our two new models the R-30 and Z-30:

1. Vehicle Emissions Control Information; and,
2. Sample of the VIN placard.

Please include this information with the information previously submitted on our behalf. If you care to find out more regarding the vehicles that we are marketing please do not hesitate to contact me directly or visit our website at www.evtamerica.com

Lastly, if there is any testing, regulatory information or additional information you would like, please do not hesitate to contact me.

Best wishes,

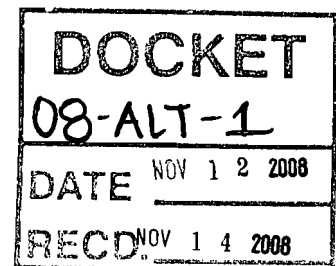

Fernando Pruna, President
