Subject: Docket No. 09-IEP-1G and No. 03-RPS-1078

California Energy Commission
Dockets Office, MS-4
Re: Docket No. 09-IEP-1G and No. 03-RPS-1078
1516 Ninth Street
Sacramento, CA 95814-5512

We support a Feed-In Tariff with unlimited project caps, or at least not set any lower than 200 MW for several reasons including

- Larger projects have the potential to be more cost effective
- Larger projects will attract venture capital, green jobs and technical leadership all benefiting California's economy
- Larger projects will enable us to achieve our greenhouse gas reduction goals more quickly.

Thank you,

--
