TO: AGENCY DISTRIBUTION LIST (Local, State and Federal)

REQUEST FOR AGENCY PARTICIPATION IN THE REVIEW OF THE CPV VACA STATION PROJECT (08-AFC-11) - SUPPLEMENTAL INFORMATION

On November 18, 2008, CPV Vacaville, LLC (CPVV) submitted an Application for Certification (AFC) to the California Energy Commission to construct and operate an electrical generating plant in the city of Vacaville, Solano County, California. The CPV Vaca Station (CPVVS) would be a combined cycle natural gas-fired, nominal 660-megawatt (MW) power generation facility.

On January 9, 2009, the Energy Commission received a Supplement B to the CPV Vaca Station AFC. This supplemental information clarifies, adds to, and explains in greater detail the information contained in the original AFC. On January 28, 2009, the Energy Commission accepted the AFC, with the supplement as complete. The Commission staff has now begun the data discovery and analysis phase of the project's licensing process. Your agency's preliminary and final determinations regarding the project's compliance with requirements administered by your agency are due by **April 20, 2009** and **June 18, 2009**, respectively.

Enclosed is a copy of the AFC in electronic format (CD). If you would like to have a hard copy of the AFC sent to you, if you have questions on how to participate in the Energy Commission's review of the proposed project, please contact Rod Jones, Project Manager, at (916) 654-5191, or by email at rjones@energy.state.ca.us. The status of the proposed project, copies of notices, an electronic version of the AFC, and other relevant documents are also available on the Energy Commission internet website at <http://www.energy.ca.gov/sitingcases/vacastation/index.html>. By being on the mailing list, you will receive notices of all project related activities and documents related to the proposed project's evaluation and review. You can also subscribe to receive email notification of all notices at <http://www.energy.ca.gov/listservers>.
