Subject: Request for Delay in Responding to the California Energy Commission's (CEC)
2009 Integrated Energy Policy Report (IEPR) Data Request on Demand, Rates
and Resources

Dear Ms. Jones:

The Los Angeles Department of Water and Power (LADWP) is requesting a two-week extension to fulfill the CEC's 2009 IEPR data request for Electricity Demand Forecasts and Electricity Resource Plans. Thus, we are requesting an extension to March 2, 2009, from the original date of February 13, 2009.

We are cognizant that extension requests need to be provided to the CEC 15-days in advance of the due date. Our original intent was to provide all data required by the original due date. However, it has become evident that we need additional time to fully integrate all required responses and to complete all the required reviews and approvals.

Please call me at (213) 367-0677 or e-mail me at Oscar.Alvarez@ladwp.com, if you have any questions or require additional information. I have informed your staff of this upcoming request. Your approval will be greatly appreciated.

Sincerely,

Oscar A. Alvarez
Manager of Regulatory
Standards and Compliance
