**Subject:** Docket #09-IEP-1B Cerritos electricity resource plan  
**Attachments:** Docket #09-IEP-1B Resource Plan

**DOCKET****09-IEP-1B**

DATE FEB 10 2009

RECD. FEB 10 2009

Docket Office Staff:

The attached two Excel files in Win.Zip format were submitted today by the City of Cerritos.

This file was prepared and submitted by Mr. Tom Clarke, Electric Utility System Manager for Cerritos Electric Utility. Mr. Clarke can be contacted at telephone (562) 916-1328 or by email [tkentclarke@hotmail.com](mailto:tkentclarke@hotmail.com).

Earlier today I sent Mr. Clarke an email with questions about data on the S-1 form and the S-1 Monthly form. I had the pleasure of meeting Tom in person in January 9 at the Cerritos Civic Center. He told me then he would be filing before the February 13 due date because of a long-planned trip to Florida. I am sure my questions will be answered when he returns later this month, and I expect we will see another filing with minor revisions. There is no other contact at Cerritos for the more detailed technical information about electricity resource planning data. Mr. Clarke's email included a cc to [vince\\_bar@ci.cerritos.ca.us](mailto:vince_bar@ci.cerritos.ca.us) since Mr. Clarke reports to Mr. Vince Brar, Senior Assistant City Manager for Cerritos.

Cerritos is a very small publicly owned utility that had a peak load in 2006 of just 10 MW. Like other very small POU's, Cerritos is submitting electricity resource data to the Energy Commission for the first time this year. In lieu of a cover letter or transmittal message in an email, this email may serve as documentation needed for docketing purposes. Thank you.
