

Attached are the CEC Electricity Data Request Forms for AEPCO LSE serving the Anza load. We did not fill out Tab S-5 Bilateral Contracts on the Small POU Supply Forms because the portion of Anza's load over our 10 MW ETC is served with a purchase each month in SP15. The purchase could be done 2 months in advance and could be from a variety of providers in the SP15 zone.

The hourly loads on the Supply Form S-3 do include Distribution Losses.
