

APPLICATION FOR CONFIDENTIAL DESIGNATION

(Title 20 Cal. Code. Regs., § 2505 et seq.)

TO: ENERGY COMMISSION EXECUTIVE DIRECTOR, MS-39

ENERGY COMMISSION CONTRACT/DOCKET NO. (IF APPLICABLE): 08-AFC-12

APPLICANT: San Joaquin Solar 1 LLC
San Joaquin Solar 2 LLC

ADDRESS: Martifer Renewables Solar Thermal LLC
12555 High Bluff Drive, Suite 100
San Diego, CA 92130

- 1(a). Title, date, and description (including number of pages) of the information or data for which you request confidential designation. **Information or data seeking a designation of confidentiality must be included with this application.**

Confidential Supplemental Information (Emission Offset Information and Energy Generation Data) of the San Joaquin Solar 1&2 Application for Certification – Emission Offset sellers are identified and energy production generation is detailed. 26 pages hardcopy; 26 pages electronic.

- 1(b). Specify the part(s) of the information or data for which you request confidential designation.

Confidential Supplemental Information (Emission Offset Information and Energy Generation Data) of the San Joaquin Solar 1&2 Application for Certification, including charts, tables, term sheets and correspondence included with these documents, be designated as confidential.

2. State and justify the length of time the Energy Commission should keep the information or data confidential.

The megawatt generation information should be kept confidential indefinitely as specified in the PPA between the applicant and PG&E. The emission offset sources and term sheets should be kept confidential infinitely due to the confidential nature of the negotiations. Public disclosure of the Applicants current negotiating to acquire Emission Reduction Credits would impact market cost and availability.

- 3(a). State the provision(s) of the Public Records Act (Gov. Code, § 6250 et seq.) or other law that allows the Energy Commission to keep the information or data confidential, and explain why the provision(s) apply to that material.

The information includes data used to calculate the costs of obtaining emissions offsets and information of a power purchase agreement which are exempted from disclosure by sections 6254.7(f), 6254.11 of the Public Records Act, respectively [Cal. Govt. Code Sections 6254.7(f) and 6254.11].

- 3(b). Discuss the public interest in nondisclosure of the material submitted for a confidential designation. If the material contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please state how it would be lost, the value of the information to the applicant and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.

The material contains trade secrets and its disclosure would cause a loss of the Applicant's competitive advantage. Public disclosure of the Applicants current sources of Emission Reduction Credits would impact market cost and availability of the purchasable ERCs.

4. State whether the information or data can be disclosed if it is aggregated with other information or masked to conceal certain portions (including but not limited to the identity of the applicant). State the degree of aggregation or masking required. If the data cannot be disclosed even if aggregated or masked, explain why.

The ERC information cannot be masked or aggregated with other information because masking will still reveal sensitive financial information of the ERC "seller" and the Applicant. The megawatt generation information cannot be masked or aggregated because masking will still reveal sensitive purchase agreement terms with PG&E.

5. State how the material is kept confidential by the applicant and whether it has even been disclosed to a person other than an employee of the applicant. If it has, explain the circumstances under which disclosure occurred.

The material contained within the Confidential Supplemental Information has not been disclosed by the Applicant to anyone other than the Applicant's employees or agents and the Commission Staff. Applicant cannot certify, however, that documents prepared under the direction of others have not been revealed to others.

I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct, and complete to the best of my knowledge and that I am authorized to make the application and certification on behalf of the applicant.
