RE: Docket number 08-ALT-1/AB118 Regulations

Dear Commissioners:

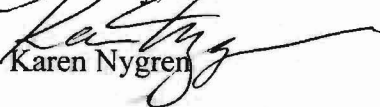

I am familiar with AB 118 and am aware you have received a request from Unimodal, to receive funding to construct a SkyTran pilot project in Marin County, California. I am writing to request your approval for the funding of AB118 for Unimodal, Inc.

The Marin County Board of Supervisors has recently invited Unimodal to work with the County to develop a SkyTran pilot project in Marin. Unimodal is another tool which can successfully be used to reduce greenhouse gas emissions as well as the use of the private automobile in Marin and California.

At the highly regarded, NASA Ames Research Center in Mountain View, California there is already working a segment of a SkyTran demonstration project. This proves this forward thinking and innovative technology works and has the ability to be up and running in a very short period of time.

Once again, I am strongly encouraging you fund through AB 118 Unimodal's request to construct a SkyTran pilot project in Marin. County. Thank you for your serious consideration.

Yours truly,

Karen Nygren
