| NELLI Profession 14 16 th St Modes Telephone | 14 | I, VICKI RULE, declare: | | | | |
| A F 101 | 15 | 1. I am an individual and, during all time periods relevant to this declaration, was the | | | | |
| | 16 | Purchasing Agent of Del Valle Capital Corp. | | | | |
| | 17 | 2. In or about April of 2007, a meeting was held at my office for Del Valle Builders | | | | |
| | 18 | at their Isleton, California project. Also in attendance at that meeting were Evonne Revitt of the | | | | |
| | 19 | Pacific Gas and Electric Company, David Hegarty of Duct Testers, Inc. and Jaime Padrone | | | | |
| | 20 | representing Energy Sense, Inc. The purpose of this meeting was to discuss the CF1R/T-24 | | | | |
| | 21 | requirements for the Del Valle project to meet Energy Star and California Code requirements as | | | | |
| | 22 | well as those called for under the PG&E incentive program. | | | | |
| | 23 | 3. During our meeting, the issue of EnergySense's connection with Masco was | | | | |
| | 24 25 | brought up. Sacramento Building Products, another Masco entity, was providing all of the | | | | |
| | 25 26 | insulation to our project, as was the case with a significant portion of the projects I was involved | | | | |
| | 20 27 | with. In fact, Mr. Padrone had originally been introduced to me by Michael O'Leary from | | | | |
| | 27 | Sacramento Building Products. | | | | |

4. During our meeting, Mr. Hegarty expressed the opinion that having EnergySense provide HERS ratings of installations carried out by Sacramento Building Products may violate the conflict of interest regulations covering HERS Raters. Mr. Padrone became strangely enraged and animated at the suggestion of a conflict, so much so that I nearly terminated the meeting. I was able to keep the meeting going forward, although Mr. Padrone remained extremely angry throughout.

5. I knew from previous projects that Masco was heavily involved in several phases of the construction process. I was using Masco-companies for insulation, gutters, doors, paint, fireplaces and even framing on two of the model homes. Even though Mr. Padrone was working with EnergySense at this time, whenever I communicated with him by e-mail, I was both sending and receiving messages via a Masco e-mail address. Much of the work that the Masco entities were doing for me were done in conjunction with Masco's "Environments for Living" program. Both the installation and inspection of energy efficiency measures were all part of a "package" that had been sold to me by Sacramento Building Products. In fact, when I had problems with any of the other trades provided by Masco subsidiaries, Jaime is who I would frequently contact to have the matter corrected.

6. I was concerned about the potential for conflict of interest issues. I did not want 19 the Ratings done by EnergySense to be deemed invalid, thereby requiring re-inspections at 20 \$200+ per home. I voiced these concerns to Mr. Padrone. He told me that I had no risk of that 21 taking place as EnergySense could not be testing their own work as EnergySense was not in any 22 23 way affiliated with Masco. He also represented that he had a letter from Bill Pennington of the 24 C.E.C. stating there was no conflict with EnergySense inspecting installations by other Masco 25 entities. I have no specific recollection of Jaime ever sending me a copy of this letter from Mr. 26 Pennington.

27

28

7. Based upon these assurances from Mr. Padrone, I went ahead and used EnergySense for the HERS testing.

The facts set forth above are personally known to me and I have first hand knowledge of the same, and if called as a witness I can and will competently testify thereto under oath.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct, and that this declaration is executed on March 27, 2009 at Modesto, California.

4. During this meeting, I advised Ms. Rule that, in my opinion, Masco and Energy Sense may be in violation of the conflict of interest provisions contained in Title 20 of the California Code of Regulations because both the installation and the HERS inspections were being carried out by two Masco-owned companies.

5. Mr. Padrone disagreed with this opinion. In support of his position that there was no conflict, Mr. Padrone told those in attendance that he had, in his office, a letter signed by Bill Pennington. In this letter, Mr. Padrone claimed that Mr. Pennington, on behalf of the California Energy Commission, had provided written approval for EnergySense to carry out HERS ratings under Title 24 for installations carried out by other Masco-owned entities. Mr. Padrone then offered to provide a copy of the Pennington letter to Ms. Rule.

6. Because of my previous communications with the California Home Energy Efficiency Rating Service (CHEERS) regarding a possible investigation of this matter, I was relatively certain no such letter existed. I invited Mr. Padrone to produce the letter from Mr. Penington.. He agreed to do so when he returned to his office. In order to expedite the process, I asked Mr. Padrone to call his office and have the letter faxed directly to the to the Del Valle office while we were all there. Mr. Padrone advised us that he would be unable to do so as there was no one at his office at that time. Ms. Rule agreed to provide Mr. Padrone additional time to return to his office so as to provide her with the authorization letters from the CEC.

7. I never received copies of the alleged CEC authorization letters and have never 21 22 been advised by Ms. Rule that such a letter from Mr. Pennington had ever been received.

23 The facts set forth above are personally known to me and I have first hand knowledge of 24 the same, and if called as a witness I can and will competently testify thereto under oath. 25 111
