Re: SES Solar One Project; 08-AFC-13

Dear Docket Clerk:

Enclosed are an original and one copy of CURE's Petition to Intervene.
Please process the document and provide us with an endorsed copy in the envelope
provided.

Thank you for your assistance.

Sincerely,

Loulena A. Miles

On behalf of the CALIFORNIA UNIONS
FOR RELIABLE ENERGY

STATE OF CALIFORNIA

**Energy Resources Conservation
and Development Commission**

In the Matter of:

The Application for Certification for the
SES Solar One Project by SES Solar
One, LLC

Docket No. 08-AFC-13

**PETITION TO INTERVENE BY
CALIFORNIA UNIONS FOR RELIABLE ENERGY**

Pursuant to sections 1207 and 1712 of Title 20 of the California Code of Regulations, California Unions for Reliable Energy (“CURE”) petitions to intervene in this proceeding.

Section 1207(a) grants “any person” the right to file a petition to intervene which sets forth “the grounds for the intervention, the position and interest of the petitioner in the proceeding, the extent to which the petitioner desires to participate in the proceedings, and the name, address, and telephone number of the petitioner.” Section 1207(c) provides that the “presiding member may grant leave to intervene to any petitioner to the extent he deems reasonable and relevant....”

CURE is a coalition of unions whose members construct and operate power plants in California. Thus, the project directly affects the union members' immediate economic interests.

The project also affects the union members' long-term economic and environmental interests. Environmental degradation jeopardizes future jobs by causing construction moratoriums, depleting limited air pollutant emissions offsets, using limited fresh water, and putting other stresses on the environmental carrying capacity of the state. This reduces future employment opportunities. In contrast, well designed projects that reduce environmental impacts of electricity generation improve long-term economic prospects.

Union members are concerned about projects that cause serious environmental harm without providing countervailing economic benefits. The Commission's application process provides for a balancing of the project's socioeconomic and environmental impacts. CURE's ultimate position in this proceeding will be determined based on all of the factors that will be considered by the Commission.

CURE has been granted intervention in many other siting cases brought before the Commission since the enactment of AB 1890. The Commission rejected the only challenge to CURE's participation in those cases, finding CURE's interests "undeniably relevant" to the proceedings. (In the Matter of Application for Certification for the High Desert Power Project,

Docket No. 97-AFC-1, Order Granting Petition to Intervene at 2 (Dec. 24, 1997)). The same decision should be reached here.

CURE wishes to participate fully in all phases of this proceeding. Filings should be served on CURE at the address listed below.

For the foregoing reasons, CURE respectfully requests that the Commission grant its petition to intervene in this proceeding, and allow CURE to participate as a party.

Dated: May 7, 2009

Respectfully submitted,

_____/s/_____

PROOF OF SERVICE

I, Bonnie Heeley, declare that on May 7, 2009, I served and filed copies of the attached **PETITION TO INTERVENE BY CALIFORNIA UNIONS FOR RELIABLE ENERGY**. (At present, there is no Service List provided on the Energy Commission's website for this matter.) The document has been sent to the Commission's Docket Unit in the following manner:

An original paper copy and one electronic copy were mailed and emailed respectively to the Docket Office of the California Energy Commission as follows:

CALIFORNIA ENERGY COMMISSION

Attn: Docket No. 08-AFC-13

1516 Ninth Street, MS-4

Sacramento, CA 95814-5512

docket@energy.state.ca.us

I declare under penalty of perjury that the foregoing is true and correct.
Executed at South San Francisco, CA this 7th day of May, 2009.
