Dear Ms. Jones:

The California Department of Water Resources (CDWR) recently provided electricity resource planning information to the California Energy Commission (CEC) as part of the Integrated Energy Policy Report (IEPR) process. Portions of CDWR's submittal have been designated confidential under the Public Records Act (Government Code Section 6254(e)) and, accordingly, should be similarly designated confidential by the CEC under Public Resources Code Section 25322 and 20 California Code of Regulations Section 2505(b). The information to be kept confidential is listed in the attached chart. CDWR does not object to this information being used in an aggregated format with data from other market participants so its relation to CDWR is masked.

If you would like to discuss this further, please contact me at (916) 574-1295.

Sincerely,

Michael J. Weiss for VH
