PROJECT TITLE: GWF Tracy

E-mail	airportinformation@ci.tracy.ca.us	<input type="checkbox"/> Meeting Location:
NAME:	Bruce Ludeman	DATE: 5-20-09 TIME: 11:00 a.m.
WITH:	Tracy Municipal Airport Coordinator	
SUBJECT:	GWF Tracy – Feasibility of Proposed Condition of Certification TRANS-3	

COMMENTS: I (Scott Debauche) discussed the GWF Tracy project with Mr. Ludeman. Staff has learned the following information from the call: 1) TCY does not have an Automatic Terminal Information System (ATIS) or an Automatic System Observation System (ASOS) but in fact does use an Automatic Weather Observation System (AWOS) which radio channels weather conditions and other hazards to pilots using TCY and in the airspace surrounding; and 2) Mr. Ludeman indicated that the measures identified in PSA Condition of Certification TRANS-3 are feasible and would be effective in notifying pilots of the thermal plume hazard.
