My apology, Alan. My final discussions with USFWS and CDFG were not conversations, so I did not create ROCs for them. The email below is from the US Fish and Wildlife Service. Next, I will forward the email I received from CDFG. I'm sorry I didn't get these to you sooner.

Anne

Hi, Anne. Steve Mayo reviewed my inquiry on this project and said that they (San Joaquin COG) has no problem with this project going through the HCP. Once the project has been approved by the HTAC, the Service would write a standard letter appending this project to the San Joaquin HCP.

If you have any further questions, please don't hesitate to contact me,
 Ellen

Hello again Ellen,

The last time we talked you were going to discuss the GWF Tracy project with Steve Mayo to determine how FWS would like to be involved. I'm checking back with you to find out if you need more information or would like to discuss anything further.

Thanks,
Anne Wallace
