Dated: June 9, 2009

At its business meeting on June 17, 2009, the California Energy Commission (“Commission”) is currently scheduled to consider the Presiding Member’s Proposed Decision (“PMPD”) on the Application for Certification of the Chula Vista Energy Upgrade Project. MMC Energy, Inc. (“MMC Energy”) respectfully requests that the Commission: (1) postpone its consideration of the PMPD; (2) suspend this proceeding; and (3) schedule the filing of a status report by the applicant on or before October 12, 2009.

MMC Energy is the current owner of the existing Chula Vista Power Plant and the applicant for certification of the proposed Chula Vista Energy Upgrade Project (“Upgrade Project”) which would replace the existing Chula Vista Power Plant. MMC Energy is in the process of selling its interest in the Chula Vista Power Plant and the Upgrade Project.

In light of the pending sale, MMC Energy requests that the Commission postpone consideration of the PMPD until the new owner has an opportunity to determine how it wishes to proceed in light of the adverse PMPD. In particular, the new owner will need to decide whether it will ask the Commission to consider an override pursuant to Public Resources Code § 25525 or some other course of conduct. The Commission hearing is now scheduled for June 17, 2009. As of that date, MMC Energy will still be the owner of record, but only for a short additional period while the sale is finalized.

During the transition to new ownership, it would be appropriate for the Commission to suspend this proceeding. The Commission has often suspended proceedings at the applicant’s request for good cause shown. *See, e.g., In re: Application for Certification of Bullard Energy Center,*

Docket No. 06-AFC-8, Order issued August 28, 2007 (order suspended proceedings for one year). MMC Energy submits that the need to complete the transition to new ownership is good cause to suspend the proceeding.

MMC Energy believes that it is only necessary for the Commission to postpone the hearing on the PMPD and suspend the proceeding for a limited period of time. But, in lieu of setting a firm date for a Commission hearing at this time, MMC Energy requests that the Commission order the applicant to file a status report on or before October 12, 2009. In this status report the applicant could inform the Commission regarding how the Buyer would like to proceed. The Commission could then reschedule the hearing on the PMPD, lift the order suspending the proceeding, or take other appropriate actions.

In summary, MMC Energy requests that the Commission: (1) postpone its consideration of the PMPD; (2) suspend this proceeding; and (3) schedule the filing of a status report by the applicant that would be filed on or before October 12, 2009.

Respectfully submitted,

William Kissinger
