Subject: Request for Confidential Designation
AFC **Appendix 5.3(B) Cultural Resources Technical Report**
and Appendix 5.3(C) California Historical Resources Information System
(CHRIS) Literature Search Results
Contra Costa Generating Station (09-AFC-04)

Dear Ms. Jones,

Contra Costa Generating Station, LLC, (CCGS, LLC) is the owner of the Contra Costa Generating Station (CCGS). CCGS, LLC, requests that the attached information be designated confidential pursuant to 20 CCR Section 2505. This information is being supplied to the California Energy Commission (CEC) as Confidential Appendix 5.3(B) Cultural Resources Technical Report, and Appendix 5.3(C) California Historical Resources Information System (CHRIS) Literature Search Results.

In support of its application for confidentiality designation, CCGS, LLC, provides the following information:

APPLICANT: CCGS, LLC Contra Costa Generating Station, LLC
ADDRESS: 145 Town and Country Dr.
Danville, CA 94526

DOCKET

09-AFC-4

DATE JUN 30 2009

RECD JUN 30 2009

1(a). Title, date and description (including number of pages) of the record for which you request confidential designation.

- Confidential Appendix 5.3(B) Cultural Resources Technical Report
- Confidential Appendix 5.3(C) California Historical Resources Information System (CHRIS) Literature Search Results

The two documents in their entirety are requested for confidential designation.

1(b). Specify the part(s) of the record for which you request confidential designation.

The reports identified above in 1(a), in their entirety:

- Confidential Appendix 5.3(B) Cultural Resources Technical Report
- Confidential Appendix 5.3(C) California Historical Resources Information System (CHRIS) Literature Search Results

2. State and justify the length of time the Commission should keep the record confidential.

Cultural Resources Technical Report, and California Historical Resources Information System (CHRIS) Literature Search Results should be kept confidential indefinitely to protect potential cultural resources sites. If the descriptions of the locations of the sites are released to the public domain, there is a potential for looting of that site.

3(a). State the provisions of the Public Records Act or other law that allows the Commission to keep the record confidential, and explain why the provision(s) apply to the record.

Cultural Resources Technical Report, and California Historical Resources Information System (CHRIS) Literature Search Results specifically identify areas of potential cultural, archaeological and historical significance. It is thus protected under Government Code Sections 6254(e) and 6254(k). Protection provided is analogous to that given to Native American sacred places under Section 6254(r) of the Government Code.

3(b). Discuss the public interest in nondisclosure of the record. If the record contains trade secrets or its disclosure would otherwise cause loss of a competitive advantage, please also state how it would be lost, the value of the information to the applicant, and the ease or difficulty with which the information could be legitimately acquired or duplicated by others.

The public interest will be served by nondisclosure by preventing looting of the cultural resources sites described in Cultural Resources Technical Report, and California Historical Resources Information System (CHRIS) Literature Search Results. Such looting would preclude scientific study of the sites to gain data about the cultural resources area.

4. State whether the record may be disclosed if it is aggregated with other information or masked to conceal certain portions (including but not limited to the

identity of the applicant). State the degree of aggregation or masking required. If the data cannot be disclosed even if aggregated or masked, explain why.

CCGS, LLC, believes the CEC staff will require the specific information contained in Cultural Resources Technical Report, and California Historical Resources Information System (CHRIS) Literature Search Results to properly perform its analysis. Aggregation of information would hinder a complete CEC analysis. However, CCGS, LLC, believes the CEC can incorporate a generalized summary of information contained in the Cultural Resources Technical Report, and California Historical Resources Information System (CHRIS) Literature Search Results to properly state the basis for its analysis without disclosing information specific enough to facilitate looting.

5. *State how the record is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant. If it has, explain the circumstances under which disclosure occurred.*

CCGS, LLC, has not disclosed any of the subject information to anyone other than its employees, attorneys, and consultants working on the CCGS. Moreover, this information will not be disclosed to any other persons employed by or working for CCGS except on a "need to know" basis. CCGS, LLC, is marking this information "Confidential" and is instituting a policy that segregates this information from other CCGS files and that access to it be restricted to a designated confidential information manager or managers within CCGS, LLC or its attorneys/consultants.

I certify under penalty of perjury that the information contained in this application for confidential designation is true, correct and complete to the best of my knowledge and I, attorney with the Law Firm of GalatiBlek, LLP, am authorized to make the application and certification on behalf of the applicant.

A handwritten signature in black ink, appearing to read "David Wiseman". The signature is fluid and cursive, with a large initial "D" and "W".
