STATE OF CALIFORNIA ENERGY RESOURCES CONSERVATION AND  
DEVELOPMENT COMMISSION

In the Matter of the ) Docket No. 01-AFC-21C  
)  
Tesla Power Plant Extension ) Robert Sarvey's Support for  
) Intervention of the IEP

On July 13, 2009 PG&E filed its opposition to the intervention of the Independent Energy Producers (IEP). PG&E's position is that the IEP should be granted only limited intervention in the compliance proceeding. PG&E has no issues with IEP providing a brief on the legal issues surrounding good cause. PG&E does object to IEP providing any testimony on factual questions posed by the Committee. PG&E states that IEP's petition to intervene does not address issues surrounding question 3 posed by the Committee. A clear reading of IEP's petition for intervention states that, "IEP wishes to participate fully in this Amendment proceeding."

The committee is seeking factual information in questions 3 a-k of the hearing order to determine if in fact good cause exists to grant this extension. These questions while considered outside the scope of a good cause showing by PG&E are questions the committee has posed to all parties and IEP's members should they file for a construction extension will be subject to the determinations made by the Commission on these issues. IEP's testimony would be illuminating to the Commission particularly any testimony they may wish to offer on how PG&E's Tesla Project will affect the current efforts to establish a competitive hybrid market.

The Committee has already invited any governmental agencies or members of the public to provide comments to assist them in their determination. PG&E has offered no reasons why IEP's intervention would harm them or prejudice any other party. Therefore IEP's petition should be granted.

Respectfully submitted,
