Subject: GWF Tracy (08-AFC-7)

Dear Mr. Solomon:

The San Joaquin Valley Unified Air Pollution Control District CEQA-ISR staff has reviewed the project referenced above for the proposed conversion of the existing 169 MW simple-cycle power plant into a 314 MW combined-cycle power plant and has no comments to offer at this time.

If you have any questions or require further information, please call the District at (559) 230-6000 and ask to speak to the ISR/CEQA group.

Sincerely,

Jessica Willis
