2600 Capitol Avenue, Suite 400
Sacramento, CA 95816**RE: Paleontological Resources: Application for Confidentiality
Mariposa Energy Project
Docket No. 09-AFC-3**

Dear Mr. Harris:

On June 15, 2009, Mariposa Energy, LLC ("Applicant") filed an application for confidentiality to the above-captioned docket, on behalf of Mariposa Energy Project. Applicant seeks confidentiality for figure PAL-1, Paleontological Localities, of the Application for Certification for the Mariposa Energy Project.

The application for confidentiality states that the information is exempt from disclosure under the California Public Records Act, Government Code section 6254.10. The application goes on to state:

The public interest in nondisclosure is that disclosure may enable location of these resources by thieves, vandals, or persons conducting unauthorized collection of materials.

A properly filed application for confidentiality shall be granted under the California Code of Regulations, title 20, section 2505(a)(3)(A), "if the applicant makes a reasonable claim that the Public Records Act or other provision of law authorizes the [Energy] Commission to keep the record confidential."

The California Public Records Act recognizes the confidentiality principles of federal law. (Gov. Code, § 6254(k).) The Archaeological Resources Protection Act establishes a clear, national legal policy that all types of archaeological, paleontological, and cultural resource site locations must be kept confidential in order to preserve them. (16 U.S.C. § 470hh. Therefore, Mariposa Energy Project's application for confidentiality will be granted in its entirety and Figure PAL-1, Paleontological Localities, will be kept confidential for an indefinite period.

Please note that any subsequent submittals related to this application can be deemed confidential as specified in this letter without the need for a new application under California Code of Regulations, title 20, sections 2505(a)(1)(G) and 2505(a)(4), if Applicant files a certification under penalty of perjury that the new information is substantially similar to the information granted confidentiality by this determination.
