Subject: Fwd: Complaint/Comment Form

This actually is more a comment than a complaint. Please file comment on once-through cooling with Docket # 09-IEP-10

Complaint or Comment About the California Energy Commission

Description of complaint or comment (people involved, dates, time, etc).

SUBJECT: Power plant cooling systems

I read in the paper that you were drafting a proposed law that would require 19 coastal power plants in CA to use another cooling system/source other than the sea water that is presently used. You've got to be kidding. This is perhaps the most ridiculous proposal I've heard of. Please gather your senses before you further cripple our wonderful state.

Native CA,
 Dan Delmer

Would you like to discuss this complaint in detail with a Commission representative?
 NO

Further Action to Be Taken

Please specify what action you would like the Energy Commission to take?
 Don't even toy with such a proposal, it makes Californians appear to be very very ignorant.

Give a brief summary of any action already taken in relation to this complaint.
 n/a

Give the name(s) of any person in the Commission already contacted in relation to this matter.
 n/a
