**Re: ARRA SEP Guidelines**

To Whom It May Concern:

On July 31, 2009, the City of Riverside participated in the Webinar related to the State Energy Program. One comment that the City would like addressed in the program guidelines relates to Slide 7 of the presentation, Bullet 5:

- Commission will re-allocate funds from projects that are not making sufficient program to be complete by the deadline.

It would be helpful to provide additional information to applicants on what is the determining factor for "sufficient progress". This would help ensure that projects underway do not lose funding prematurely.

Thank you for your consideration.

Sincerely,

Staci Sullivan  
Principal Management Analyst
