E-Mail: tfrantz@bak.rr.com

3. Petitioner is not a member of a group or organization already a party to this proceeding.

4. Petitioner seeks to intervene in this proceeding because [*state grounds for intervening; reason for interest; the extent to which the petitioner desires to participate in the proceeding; and, if Petitioner is a member of a group or organization which is already a party, state why intervening as an individual is necessary*]:

The Association of Irrigated Residents (AIR) is an unincorporated non-profit association of San Joaquin Valley residents who live in Stanislaus, Fresno, Kings, Tulare, and Kern Counties. The purpose of the association is to advocate for better air quality in the San Joaquin Valley. AIR has been in existence since 2001.

AIR seeks to intervene in this proceeding for the following reasons. The AFC for San Joaquin Solar 1 & 2 presents a dilemma for AIR. AIR is in favor of locating solar powered electrical generating facilities in the San Joaquin Valley (SJV) but it cannot be in favor of such facilities if they worsen the air quality of the region. This AFC presents real questions and concerns about the air quality aspects of the project because of the biomass incineration and its associated mobile emissions. AIR, as well, has a real interest in determining the green house gas reduction potential of the project because climate change may impact the SJV through higher temperatures leading to more ozone pollution and less water leading to more abandoned farm land and all the negative effects that may have on air quality and quality of life for residents of the SJV. AIR also has a real

interest in protecting farmland and water resources in the SJV because of the buffer it provides to excessive development which would add more pollution to the region. Members of AIR have participated directly in San Joaquin Valley Air Pollution Control District rulemaking the past several years and have also participated actively in the development of the AB 32 Scoping Plan at CARB. These activities make AIR members uniquely qualified to analyze this project in terms of its environmental impacts on the San Joaquin Valley.

For the broad reasons listed above AIR wishes to intervene in order to attend workshops and hearings as a full participating member of the certification process. AIR wishes to ask questions of CEC staff and the applicant about the project and suggest questions that need answering and data gaps that need filling in order for the public and the CEC to fully understand all the implications of this project, especially in the areas mentioned above. AIR also wishes to participate fully in the evidentiary hearing and call its own witnesses to testify plus question the witnesses of the applicant and CEC staff.

5. Petitioner agrees that if a document is served upon me via email, an additional paper copy by mail is not necessary.
