The following CD is a recording of the Alternative and Renewable Fuel and Vehicle Technology Program's ARFVTP Electric Drive workshop held on September 9, 2009. The workshop was held in Diamond Bar, California at the South Coast Air Quality Management District's headquarters.

This workshop was held in order to prepare for the development of the ARFVTP Investment Plan for the 2010-2011 Fiscal Year. Input was sought from various stakeholders in the electric drive industry to determine funding needs and receive updates on the status of technology, infrastructure, and resource availability for the continued development of the market.
