Sacramento, CA 95814-5512

Re: 2009 Integrated Energy Policy Report (IEPR) Docket  
Number # 09-IEP-1L: Southern California Edison Company's (SCE's) Response to the  
Data Request Related to California's Nuclear Power Plants

To Whom It May Concern:

In response to the CEC's data request CEC-SCE-SONGS 01 question F.05, SCE identified that it was planning to form a Seismic Advisory Board. As discussed with Ms. Barbara Byron at a meeting at the CEC's offices last week, SCE formed the Board and held a meeting on August 19 and 20, 2009. The Board members are:

Member Name	Area of Expertise	Affiliation	Other Considerations
Lloyd Cluff	Seismic Geology & Policy	Pacific Gas & Electric	Director of PG&E Geoscience Department and responsible for the Diablo Canyon Long Term Seismic Program. Involved with SONGS licensing in the 1970's and 1980's
Norman Abrahamson	Engineering Seismology	Pacific Gas & Electric	Works in PG&E Geoscience Department to support Diablo Canyon. Author and coordinator of the Next Generation Attenuation relationships. Involved in the 1995 and 2001 SONGS seismic hazard.
Jan Reitman	Geophysics - emphasis on offshore	Fugro	Involved with the SONGS licensing in the 1970's & 1980's and consultant to SCE for the 2001 seismic hazard.
Kevin Coppersmith	Seismic Geology	Consultant	Involved in SONGS 2&3 licensing in the 1980's and the 1995 seismic hazard.
Ed Idriss	Geotechnical Earthquake Engineering	Consultant	Consultant involved in the 1970's and 1980's in SONGS licensing and author of an attenuation relationship
Steven Day	Geology/Seismology	San Diego State	Familiar with Southern

John Barneich

Geotechnical  
Earthquake  
Engineering

University  
GeoPentech

California seismicity.  
Involved in geotechnical  
work at the SONGS site  
from 1971 through the  
present. Coordinated all of  
Woodward Clyde  
Consultant's work for the  
licensing of SONGS 2&3 as  
well as the seismic upgrade  
of Unit 1. Involved in the  
1995 and 2001 seismic  
hazard, ISFSI and Unit 1  
decommissioning.

SCE appreciates the opportunity to work with the Energy Commission staff. If you have any questions, or need additional information, please contact me at 916-441-2369.

Very truly yours,

Manuel Alvarez
