The following CD (due to technical difficulties, the first hour of the workshop was cut off on this CD) is a recording of the Alternative and Renewable Fuel and Vehicle Technology Program's Hydrogen Technology for Transportation workshop held on September 29, 2009. The workshop was held at the California Energy Commission in Sacramento, California.

This workshop was held in order to prepare for the development of the Investment Plan for the 2010-2011 Fiscal Year. Input was sought from various stakeholders to obtain information and data on vehicle deployment and cost, fueling infrastructure, fuel production, and barriers to commercialization.
