### Mojave Solar Project Application for Certification

Company No.: 1876 Facility No.: 03130

Dear Mr. Emiliano:

The Mojave Desert Air Quality Management District (District) received an Application for Certification (AFC) for the Mojave Solar Project (MSP) on August 24, 2009, and District permit applications on September 8, 2009 for the following;

Auxiliary Boiler (2)  
Emergency generator (2)  
Fire Pump (2)

Upon further review of the proposed project and pursuant to District Rule 219, permit applications and accompanying fees are required for the HTF expansion system and all required controls for that system.

Additionally, in accordance with Rule 301(C)(2)(a), in addition to the individual District permit filing fees, a complex source fee (\$6,500) is required for this electrical power plant project. Including the complex source fee required by Rule 301(C)(2), the required application filing fees total \$6,952.

The District is performing the analysis necessary to issue a Preliminary Determination of Compliance for Mojave Solar. The District will notify you of any future issues or information that need clarification.

If you have any questions regarding this letter, please contact Chris Anderson at (760) 245-1661, extension 1846.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alan De Salvo', with a long horizontal flourish extending to the right.

**Alan De Salvo**  
Supervising Air Quality Engineer
