RE: Docket Number 09-IEP-1D; 2009 IEPR- Transmission
Request to Amend Strategic Investment Plan:

Gentleman:

Please find this request from EWindfarm, Inc. (EWind) to CEC to amend the above Plan as follows;

- Add 2x500kV line from Kramer to Control to Nevada Energy Corridor (see Figures A-C)

The above line is requested because of the following considerations;

- There is a shortfall of renewable energy projects in California to meet its renewable energy goals
- Implementation of this new line will enable California to take advantage of untapped geothermal and wind and solar resources in Mono and Inyo Counties and neighboring Nevada counties
- This transmission line path is the weakest path to the largest load center in California
- There exist transmission line right of ways in the proposed new path which could be expanded for the proposed new 2x500kV line lines including LADWP and SCE and Terra-Gen right-of-ways
- Proposed new 2x500kV line compliments the DOE and Nevada Energy Corridors (See attached map West-Wide Energy Corridor Section 368, Nov, 2008)
- Other benefits to California

We look forward to the work of the CEC and other stakeholders to meet its renewable energy goals.

Sincerely,

Andrew Zalay
President, EWindFarm, Inc.

cc Judy Grau

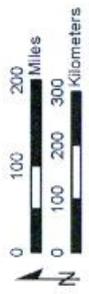

**West-wide Energy Corridor
Programmatic EIS
Proposed Section 368
Energy Corridors
November 2008**

Corridor Transmission Designation*

-  Multi-modal
-  Electric-only, Upgrade-only
-  Electric-only
-  Underground-only
-  Locally Designated

* Corridor widths are not to scale.

-  State Owned
-  Tribal Lands
-  DOD Installations and Ranges
- Federal Ownership**
-  Bureau of Land Management
-  Bureau of Reclamation
-  Department of Defense
-  Department of Energy
-  Fish and Wildlife Service
-  National Park Service
-  Other
-  US Forest Service
