## RE: TRAFFIC REPORT FOR THE SOLAR PLANT LOCATED ALONG HECTOR ROAD

Dear Mr. Fiore:

On January 6, 2010 you email us the Traffic and Transportation Section within the Environmental Document for the Hector Road Solar Power Plant for review. We have the following comments:

1. The existing condition analysis shall use the peak hour factor from the traffic counts. For the future year conditions, use 0.95.
2. The study shall include the future buildout year 2035. Any mitigation shall show a cost and a fair share for the project.
3. Caltrans needs to review and comment on this document. Please share their comments with us.
4. Our 24 hour two-way traffic count, taken in April 2007 on National Trails Highway at this location is 164. Revise page 5.11-4.
5. On page 5.11-10, The County acceptable Level of Service in the Desert Area is C, not D.

If you have any questions, please call Ed Petre at (909)387-8239.

Sincerely,

JACOB Y. BABICO, P.E.  
Chief Traffic Division
