Rajesh

I will docket this email to capture your request and my answer.

If you have technical questions about the project or about the licensing process, I can help you with that.

If you have questions about the intervenor process, or what you can and can not do, please contact the public advisor's office at 916-654-4489. You will want to talk with Jennifer Jennings.

If you have objections with data, you need to file those objections to the Mariposa Committee and justify your reasoning. They can make that determination. If you have questions about the role of the committee or hearing officer, please contact Ken Celli at 916-651-8893.

I hope this helps.

Thank you.

Hi Craig

I was eagerly waiting for answers to Data Request 4. from the applicant. Robert Sarvey's Data Request 4 is absolutely relevant to this case. Applicant responding part of request "as burdensome" is completely unacceptable. I will be sending a new data request insisting the answer and will explain how important it is to clearly understand the rationale and the detail discussions between Applicant and Alameda county around approving Mariposa site location for the power plant. Since the site is very strategically located on Alameda county's border with near-zero effects to Alameda residents (Since literally there are no Alameda homes around) and my Mountain House community is going to breath the pollution and Alameda county is going to get Tax and power benefits, it becomes far more important for all the parties to understand what discussions happened Alameda county and the applicant and topics conversed before finalizing the site. Please understand.

Please let me know if I as a Mountain House resident can further pursue the applicant by sending another Data Request to get answers to Robert Sarvey's Data Request 4. I will surely put all my reasonings inside that data request on why it is "very important" for Applicant to take efforts to answer Mr. Robert Sarvey's Data Request 4 in full.

Thanks and Regards
-Rajesh Dighe
