Subject: **CALICO SOLAR PROJECT (08-AFC-13) STATUS REPORT #5**

Pursuant to the Revised Committee Schedule dated February 2, 2010, the following is Energy Commission staff's Status Report #5 for the proposed Calico Solar Project (formerly known as the Stirling Energy Systems Solar One Project).

Current Issues and Activities for Resolution

- After close of business on March 8, 2010, the applicant submitted the revised (03-04-10) Calico Solar Project Layout and Proposed Post Project Development Access Routes figures for the Calico Solar Project. Staff is reviewing the revised figures to determine if they will impact any sections of the Staff Assessment/Draft Environmental Impact Statement (SA/DEIS).

Schedule

The Energy Commission staff started transmitting technical sections of the SA/DEIS to the Bureau of Land Management (BLM) on February 22, 2010 and the final section was delivered on March 7, 2010. The BLM's National Environmental Policy Act (NEPA) consultant will complete a review of the document within one week and then the BLM will conduct their review of the administrative draft. The BLM will compile the comments and provide them to the Energy Commission staff by the close of business on March 23, 2010. Staff will address the comments from the BLM and the NEPA consultant and publish the SA/DEIS on April 1, 2010.
