Subject: Ridgecrest Solar Power Project - Petition to Extend Data Request Deadline

Mr. Burnett:

The Ridgecrest Solar AFC Committee received Kerncrest Audubon Society's (KAS) petition to extend the data request deadline. The Committee asks that KAS provide the following additional information to aid the review process:

1. A description of the technical areas at issue (e.g., biological resources, cultural resources, land use, water resources) and an explanation of why review of those technical areas could not have been completed by May 17, 2010;
2. A description of each of the environmental field surveys at issue;
3. The date(s) that the surveys are expected to be completed;
4. A statement explaining whether the surveys are in follow-up to previously prepared surveys or if they are being performed for the first time; and
5. A brief explanation of why KAS believes that the survey results "will likely lead to the need for further information that should be included in the records of the decision."

Please docket a supplemental petition and serve it per the proof of service list by 4:00 p.m. on Friday, May 14, 2010.

Do not hesitate to contact me if you have any questions about this email.
