Mr. Celli,

Mariposa Energy has provided a response to a couple of my data requests on May 12, 2010. I would consider most of Mariposa's replies as non responsive to my data requests. While the Committee could compel Mariposa to provide responses the Committee really has no method of compelling adequate responses. In deference to the Commissioners very busy schedules and the important matters that the Commissioners must attend to I do not see any purpose in a hearing which even with the best outcome would not provide any information which would aid the Committee in its deliberations. I am therefore abandoning my motion to compel in deference to the Commissioners time constraints. Thank you for your patience.

Thank You,
Robert Sarvey
